Controller

FreeStyle LED tubes are specially designed for operation in the FreeStyle T44 fixtures. The LED tubes display Kino Flo's True Match® white light and RGBWW color management system found in Kino Flo's LED lighting fixtures. For further versatility, the LED tubes operate inside the fixture or independently.

The LED controller has four menu options, one white, two colors and **FX**. With the white menu, Kelvin range is from 2700K to 6500K with **Dimming**, **Kelvin** and **Green/Magenta** control channels. In the first color menu, Kelvin range is from 2500K to 9900K, with three additional channels, **Gel**, **Hue Angle** and **Saturation**. The Gel channel includes Kino Flo presets such as blue & green screen and over 100 well-known lighting gels. The second color menu provides individual **RGB** (red, green, blue) control. The **FX** (Effects) menu has custom presets like Candle, Fire, TV, Police, Lightning, Paparazzi, Pulse and Scroll. The controller comes with standard DMX, wireless DMX (Lumen Radio®), universal input 100-240VAC and 24VDC.

Features include:

- Kelvin presets & custom settings, 2500K-9900K
- Dimming without color shift
- Green/Magenta control
- Dial in any color through Hue Angle and Saturation control
- Kino Flo presets and Gels
- RGB control
- FX (Effects) control
- Fixture includes built-in Barndoors, Reflector and Honeycomb Louver
- Twist-on, locking Center Mount and tube hanging options
